## EUROPE'S BIGGEST MOBILITY AND TRANSPORT RESEARCH CONFERENCE TAKES PLACE IN LISBON

Portugal is hosting the 2022 edition of the Transport Research Arena, TRA, Europe's largest mobility and transport research and technology conference.

Under the theme "Moving together, reimagining mobility worldwide", TRA 2022 will focus on innovative solutions for the global transport sector.

Taking place at the CCL (Lisbon Congress Center), from November 14th to 17th, TRA will bring together leading national and international experts to debate the present and future of mobility. On the agenda there will be four major themes: intelligent solutions and society; green mobility and decarbonization; innovative infrastructures for Europe 2030; policies and economics for a competitive Europe.

TRA 2022 is organized by NAI (National Innovation Agency) IMT (Institute for Mobility and Transport), CES (Consortium of Engineering Schools), NLCE (National Laboratory for Civil Engineering), and Magellan European Affairs Association. It is co-organized in partnership with the European Commission and in collaboration with the technological platforms and European associations ACARE, ALICE, CEDR, ECTP, ERTRAC, ERRAC, ETRA and WATERBORNE.

The Lisbon Congress Center is a national and international reference for congresses, conferences and all kinds of events. With a capacity for up to 6,500 people, the Congress Center has 8 auditoriums, 10,000 square meters of exhibition area divided into 5 pavilions, 35 meeting rooms, 7 foyers and a restaurant for 400 people. It is a well-suited space in a unique location overlooking the Tagus River.

## LISBON, CITY OF MOBILITY

After the editions in Gothenburg, Ljubljana, Brussels, Athens, Paris, Warsaw, Vienna and Helsinki, the 9th edition of TRA in Lisbon will serve as a bridge between past, present, and the future of mobility.

In the city that saw set sail the ships that opened the way to global mobility, the legendary 15E tram line passes by the minds of those who will reinvent tomorrow's form of transport. Recovering the avant-garde spirit, present both in Portuguese's navigation and sustainable transport, TRA brings together the sector's agents to discuss national and international mobility, as well as the major challenges it faces.

# A SPACE FOR DEBATE AND INNOVATION FOR THE PRESENT AND FUTURE

Expected to welcome about 2,000 participants in 7,000 m<sup>2</sup> of exhibition space, the 2022 edition of TRA aims to be a hub of knowledge and innovative solutions. Its goal is that of thinking transport, in all modalities, in a more efficient, safe, non-polluting, inclusive and sustainable way.

The conference has three fundamental pillars: scientific excellence, research and innovation; the latest technological and industrial developments, as well as innovative policies within European mobility; and the exchange of knowledge and experiences between Europe and other continents.

## Large exhibition area and wide variety of sessions

TRA 2022 will have an exhibition area for national and international companies and startups, and an interactive and dynamic demonstration area. There will be Plenary Sessions, which will address the central themes of the conference and feature prominent speakers, from industry players to public authorities; Strategic Sessions, which will foster knowledge sharing among the various industry players, researchers and policy makers on mobility and transport, focusing on the specific theme of each day; Technical and Scientific Sessions, in which researchers and experts will present research papers; and Side Events, which are organized by the exhibitors, and will take place in the exhibition area.

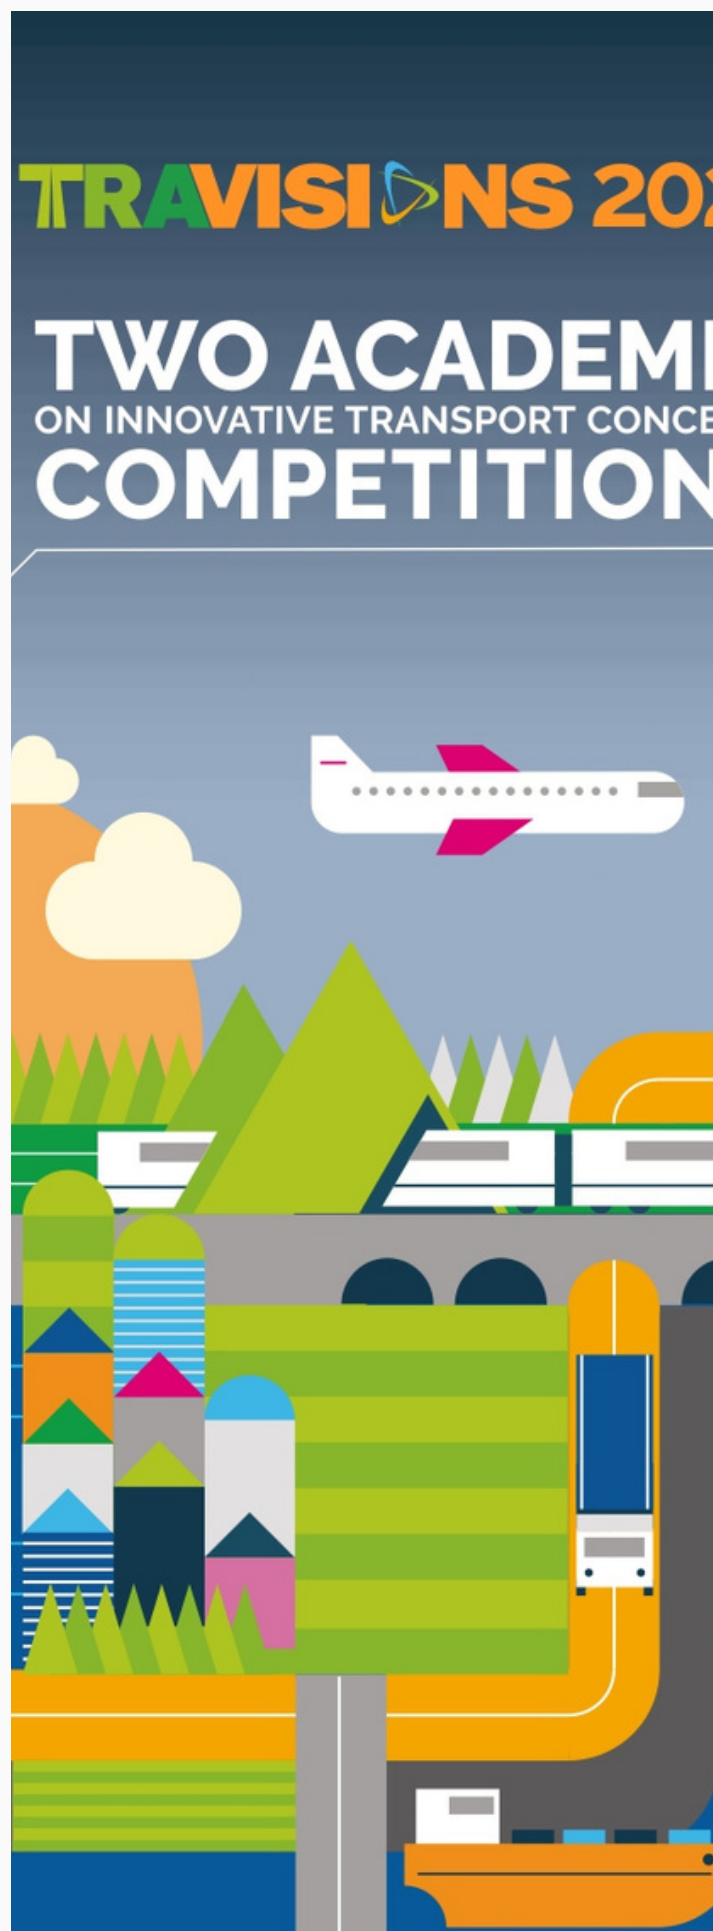

## TRA VISIONS 2022: AWARDS FOR RESEARCH

The TRA VISIONS awards will also be presented at the conference. These awards recognize the winners of two competitions, the TRA VISIONS 2022 Young Researcher Competition and the TRA VISIONS 2022 Senior Researcher Competition, for young and senior researchers respectively. The competitions focus on all modes of transport (road, rail, ship, air and intermodal). Applications are now open.

There will also be a Special Honorary Award, which recognizes an outstanding career researcher whose work represents a significant contribution to transport-related research.

TRA VISIONS aims to make the conference a stage for excellent research, stimulating the participation of young and senior researchers, as well as university students. It aims to foster the dissemination of knowledge in mobility and transport.

The award ceremonies of TRA VISIONS will take place during the opening and closing sessions of TRA 2022.

*"We must focus on people and their needs and continue to step up our engagement with youths and women. We are all key players in the transport ecosystem."*

Violeta Bulc, former EU Commissioner for Transport, at TRA 2018

*"Mobility of the future needs to be convenient, intermodal, environmentally friendly and safe. The TRA is the perfect place for us to enter an open dialogue beyond sectoral boundaries."*

George Kapsch, Kapsch Group CEO, at TRA 2018

*"Lisbon is the perfect city to host the dialogue which TRA 2022 aims to promote: a sustainable mobility has to entail innovative and courageous measures, which improve the quality of life of citizens and are therefore concrete, desirable and collective alternatives."*

Luís Maia and Marta Teixeira Pinto, TRA 2022 spokespersons

## REGISTRATION FEES - LIVE ATTENDANCE

Type - In presence	Until 10th November	Onsite
Regular (4 days)	590.00 €	740.00 €
Speakers, authors, reviewers	395.00 €	395.00 €
Students & young researchers	190.00 €	220.00 €
Exhibitors & demonstrations	350.00 €	350.00 €
Press, special guests	-	-
One day	290.00 €	350.00 €

Conference registration includes:

- access to all conference sessions;
- access to the exhibition and demonstration area;
- access to technical visits (subject to availability);
- lunch and coffee *breaks*.

Payment is possible by credit card only (Visa, Mastercard) or bank transfer.

More information at [www.traconference.eu/registration](http://www.traconference.eu/registration).

## REGISTRATION FEES - ONLINE ATTENDANCE

Type - Online attendance	Until 10th November	After 10th November
Regular (4 days)	236.00 €	296.00 €
Students & young researchers	76.00 €	88.00 €
Press	-	-
One day	116.00 €	140.00 €

Online attendance is only available for the following sessions:

- opening/closing ceremonies;
- plenary sessions;
- strategic sessions.

Online attendance foresees no interactivity from the participants, only view-mode.

Payment is possible by credit card only (Visa, Mastercard) or bank transfer.

More information at [www.traconference.eu/registration](http://www.traconference.eu/registration).
